

Motorsports – New Product Comparison

Win and retain more business with new options and new discounts.

Customize coverage for just what a motorcycle customer wants with the new Motorsports product. There are new options and many new discounts. And to help you be recognized as a solution provider for harder-to-place risks, this product line now accepts classic bikes, electric cycles, low speed electric vehicles, and snowmobiles.

Streamlined process gets your quote done fast

- Key questions that may prevent a risk from being accepted are asked up front to save you the time of creating a full quote.
- Customer and vehicle data is “pre-filled” using information already entered into the system and from other sources. This eliminates duplication and streamlines the process.
